SUMMARY

Frontend Developer specializing in modern JavaScript and React.js, with 1+ year of experience crafting high-performance, scalable web applications. Skilled in Tailwind CSS, HTML5, and CSS3, with a strong focus on responsive design, accessibility, and cross-browser compatibility. Passionate about transforming UI/UX designs into seamless, interactive experiences through clean, maintainable code. Collaborative team player who bridges the gap between design and backend development to deliver optimized, user-centric solutions. Eager to bring technical expertise and innovative problem-solving to a forward-thinking engineering team.

WORK EXPERIENCE

Frontend Developer Intern   Platform Lead Limited, Ibadan Nig.
October 2024 - May 2025

- Contributed to UI/UX design for client projects, resulting in a 12% increase in user satisfaction ratings. Strengthened frontend skills through active intern collaboration, completing over 2 projects and enhancing team productivity
- Implemented responsive design techniques across three client websites, boosting mobile user engagement by 25% and ensuring seamless functionality across multiple devices using React.js and Bootstrap.
- Enhanced application interactivity by integrating React.js components into existing frameworks, improving user engagement metrics by 18% across platforms.
- Developed and implemented user interfaces using React.js streamlining design processes to reduce page load times by 15% across three client websites.

PROJECTS

PLIT LEARN (Educational Website) www.plitlearn.com
A full-stack educational project designed to showcase the institution, different courses, and key information about Plit Learn. Built with React js, JavaScript, Tailwind CSS and a Python backend, this website enhances the institution's online presence and a seamless user experience.
Smooth responsive user interface increasing user engagement by 20% over three months.
Developed a payment API with Reactt.js, increasing seamless payment by 60%.
